

ALL-IN-ONE DIFFUSER + ROOM SPRAY BASE

NON-ALCOHOLIC • SAFETY DATA SHEET

SECTION 1 | IDENTIFICATION

Product Identifier: All-in-One Diffuser + Room Spray Base (Non-Alcoholic) (Contains: Ethoxydiglycol)

Recommended Use: Alcohol-free solvent base for room spray and diffuser oil. Not for use on skin. Add fragrance oil before sale.

Restrictions on Use: For manufacturing use only. Not a finished consumer product until fragrance is added and the finished good is labeled.

Distributor: Dulceria Candle Supply, St. Petersburg, Florida

Website: www.dulceriacandlesupply.com

Issue Date: 2026-09-29

Revision Date: 2026-09-29

Version: 2.0 - Dulceria formatted copy

SECTION 2 | HAZARD IDENTIFICATION

Classification of the substance or mixture: Eye Damage / Irritation Category 2

Signal Word: Warning

Hazard Statement: H319 - Causes serious eye irritation.

Precautionary Statements: P264 - Wash hands and other contacted skin thoroughly after handling.
P280 - Wear protective gloves/eye protection/face protection.
P305/351/338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337/313 - If eye irritation persists: Get medical advice/attention.

GHS Pictogram: Exclamation mark (GHS07)

Other Hazards Not Otherwise Classified: Not a flammable liquid. Flash point is above 200 °F. Pure ethoxydiglycol has a closed-cup flash point of about 96 °C, above the 93 °C top of OSHA Category 4.

SECTION 3 | COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS Number	Concentration	GHS Classification
Ethoxydiglycol	111-90-0	Solvent base (identity previously withheld)	Eye Irrit. 2; H319

Substances with workplace exposure limits, not listed above: Not applicable, except where a limit is named in Section 8 or Section 15.

SECTION 4 | FIRST-AID MEASURES**4.1 Description of First-Aid Measures**

After Inhalation: Move to fresh air. Get medical attention if symptoms persist.

After Skin Contact: Wash with soap and water. This base is not intended for use on skin.

After Eye Contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

After Ingestion: Rinse mouth and drink water. Do not induce vomiting. Get medical attention.

4.2 Most Important Symptoms and Effects: Causes serious eye irritation. Mild skin irritation is possible with prolonged contact.

4.3 Immediate Medical Attention / Special Treatment: Treat symptomatically. See Section 4.1.

SECTION 5 | FIRE-FIGHTING MEASURES

5.1 Suitable Extinguishing Media: Water fog, dry chemical, foam, or carbon dioxide.

Unsuitable Extinguishing Media: Not determined.

5.2 Special Hazards: Combustion may release carbon monoxide and carbon dioxide. The liquid is not a Class 3 flammable liquid.

5.3 Advice for Fire-Fighters: Wear self-contained breathing apparatus and full protective gear.

SECTION 6 | ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions: Avoid contact with skin and eyes. Absorb with sand or inert material. Keep out of drains.

6.2 Environmental Precautions: Keep away from drains, surface water, and soil.

6.3 Containment / Cleanup: Absorb with sand or inert material and place in a closable container for disposal. See Sections 8 and 13.

6.4 Reference: Also refer to Sections 8 and 13.

SECTION 7 | HANDLING AND STORAGE

7.1 Safe Handling: Avoid contact with eyes and prolonged skin contact.

7.2 Safe Storage: Keep container tightly closed in a cool, dry, well-ventilated place.

7.3 Specific End Use(s): Alcohol-free solvent base for room spray and diffuser oil. Not for use on skin. Add fragrance oil before sale.

SECTION 8 | EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters: No mixture-specific workplace limit is established. Ethanol OSHA PEL is 1000 ppm (1900 mg/m³) TWA where ethanol is an ingredient.

Eye / Skin Protection: Wear eye protection. Gloves are recommended for prolonged contact.

Respiratory Protection: Not required under normal ventilation. If vapour builds up, use an approved organic-vapour respirator.

SECTION 9 | PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear liquid
Odour	Mild, characteristic
Odour Threshold	Not determined
pH	Neutral
Melting / Freezing Point	Not determined
Initial Boiling Point / Range	About 195 °C
Flash Point	Above 93 °C (above 200 °F). Not a flammable or combustible liquid under OSHA HazCom.
Evaporation Rate	Low
Flammability (solid, gas)	Not applicable (liquid)
Upper / Lower Flammability or Explosive Limits	Not determined
Vapour Pressure	Low
Vapour Density	Not determined
Relative Density	About 1.03
Solubility(ies)	Miscible in water
Partition Coefficient: n-octanol/water	Not determined
Auto-Ignition Temperature	Not determined
Decomposition Temperature	Not determined
Viscosity	Low
Explosive Properties	Not expected
Oxidising Properties	Not expected

9.2 Other Information: Boiling point, density, and the prior flash-point statement are from the 26 July 2025 sheet. The product page states flash point above 200 °F.

SECTION 10 | STABILITY AND REACTIVITY

10.1 Reactivity: No dangerous reaction known under normal conditions.

10.2 Chemical Stability: Stable under normal storage conditions.

10.3 Hazardous Reactions: Not expected under normal conditions of use.

10.4 Conditions to Avoid: Heat, sparks, open flames, and hot surfaces where the product is a flammable liquid. Extreme heat otherwise.

10.5 Incompatible Materials: Strong acids, alkalis, and oxidising agents.

10.6 Hazardous Decomposition Products: Carbon monoxide and carbon dioxide in a fire.

SECTION 11 | TOXICOLOGICAL INFORMATION

This mixture has not been tested as a whole. Eye irritation Category 2 is carried from the prior sheet. Skin irritation Category 3 (H316) is not an OSHA HazCom class and is not used.

Acute Toxicity (Oral): Low toxicity expected. Not classified on the prior sheet.

Acute Toxicity (Dermal): Not classified.

Acute Toxicity (Inhalation): Not classified.

Skin Corrosion / Irritation: Not classified under OSHA HazCom 2012.

Serious Eye Damage / Irritation: Eye Damage / Irritation Category 2.

Respiratory or Skin Sensitisation: Not expected.

Germ Cell Mutagenicity: No data available.

Carcinogenicity: No known components classified as carcinogens on the prior sheet.

Reproductive Toxicity: Not expected on the prior sheet.

STOT - Single Exposure: Not classified. **STOT - Repeated Exposure:** Not classified.

Aspiration Hazard: Not expected.

SECTION 12 | ECOLOGICAL INFORMATION

12.1 Toxicity: Not expected to be harmful to aquatic organisms. Described as readily biodegradable on the prior sheet.

12.2 Persistence and Degradability: Not available for the mixture unless noted above.

12.3 Bioaccumulative Potential: Not available.

12.4 Mobility in Soil: Not available.

12.5 Other Adverse Effects: Not available.

SECTION 13 | DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods: Dispose of in accordance with local regulations. Flammable residues and absorbents are ignitable waste where the product is a flammable liquid.

Sewage Disposal: Do not pour into drains.

Product / Packaging Disposal: Empty containers may hold flammable vapour. Take them to an approved waste handler.

SECTION 14 | TRANSPORT INFORMATION

14.1 UN Number: Not regulated.

14.2 UN Proper Shipping Name: Not regulated.

14.3 Transport Hazard Class(es): Not applicable.

14.4 Packing Group: Not applicable.

14.5 Environmental Hazards: Not classified as a marine pollutant from the ingredients on this sheet.

14.6 Special Precautions: Not a flammable liquid for transport. No ingredient puts the closed-cup flash point at or below 60 °C.

14.7 Transport in Bulk (MARPOL Annex II / IBC Code): Not applicable.

SECTION 15 | REGULATORY INFORMATION

OSHA HazCom 2012: Classified as shown in Section 2.

Inventory: Ethoxydiglycol is listed on the TSCA inventory. The prior sheet also cited REACH and CLP.

California Proposition 65: No Prop 65 substance was named on the source sheet for this base. Review the current OEHHA list before sale into California, including after fragrance oil is added.

SECTION 16 | OTHER INFORMATION

Key to Abbreviations: Flam. Liq. 2/3/4 = Flammable Liquid Cat. 2/3/4; Eye Irrit. 2/2A/2B = Eye Irritation Cat. 2/2A/2B; Eye Dam. 1 = Eye Damage Cat. 1; Skin Irrit. 2 = Skin Irritation Cat. 2; Skin Corr. 1B = Skin Corrosion Cat. 1B; Skin Sens. 1 = Skin Sensitisation Cat. 1; Acute Tox. 4 = Acute Toxicity (Oral) Cat. 4; Aquatic Acute 1 = Hazardous to the Aquatic Environment, Acute Cat. 1; Aquatic Chronic 2 = Hazardous to the Aquatic Environment, Long-term Cat. 2.

Hazard Statements: H225 Highly flammable liquid and vapour; H226 Flammable liquid and vapour; H227 Combustible liquid; H302 Harmful if swallowed; H314 Causes severe skin burns and eye damage; H315 Causes skin irritation; H317 May cause an allergic skin reaction; H318 Causes serious eye damage; H319 Causes serious eye irritation; H320 Causes eye irritation; H400 Very toxic to aquatic life; H411 Toxic to aquatic life with long lasting effects.

Revision Summary: Version 2.0. The solvent is identified as ethoxydiglycol. Flash point is above 93 °C, so it is not a flammable liquid and Section 14 remains not regulated. This is the non-alcoholic room spray base. An alcohol room spray base is a different product and may have different transport classification.

The information in this Safety Data Sheet is correct to the best of available source information at the date of publication. It is guidance for safe handling, use, storage, transportation, and disposal. It is not a warranty or quality specification. Classifications that depend on a measured flash point should be confirmed on the production blend. Customers must label the finished product after fragrance oil is added.
